### MAINTENANCE AND CLEANING

**Metal Parts:** For cleaning, use specific products for metal polishing to slow down natural oxidation due to contact.

**Coating and Upholstery:** Any stains on the upholstery fabric can be removed either **with mild neutral detergents or with specific products indicated by the manufacturer as sanitizing and water-repellent**, for better conservation of the good condition of the coating itself. The upholstery, if it presents structural issues requiring maintenance, must be handled exclusively by specialized personnel.
