DESCRIPTION

Universal swivel chair, XL padded shell, white nylon 4-leg base.

BACKREST: Fireproof polyurethane foam padding with double density 30 kg/m³ and 50 kg/m³ on differentiated zones, with a 1.2 mm thick steel sheet insert.

SEAT: Fireproof polyurethane foam padding density 50 kg/m³, with double plywood insert.

FRAME: Pyramid swivel base with 4 nylon spokes and soft scratch-resistant footrest, in white finish.

MAINTENANCE

CHROME PARTS: Clean with a soft cloth lightly moistened with a stainless steel cleaning product.

PLASTIC PARTS: Clean with a soft cloth lightly dampened with water without pressing and then wipe dry with a dry cloth.

PAINTED PARTS: Clean with a soft cloth lightly dampened with water and then wipe dry with a dry cloth.

ALUMINUM PARTS: Use specific products for metal polishing to clean, in order to slow down natural oxidation due to hand contact. Aluminum parts naturally darken. LUXY recommends not using aggressive detergents.

FABRIC: For fabrics, apply a few drops of neutral detergent on a well-wrung damp cloth, gently wipe it onto the seat, and let it dry. See upholstery sheets in the LUXY upholstery folder. LUXY highly recommends using eco-friendly products.

LEATHER: Leather is a natural product. Imperfections on leather give it its unmistakable appearance. For stains, gently remove them with a soft woolen cloth. For more stubborn dirt, use exclusively products for leather dyed with aniline dyes. Do not expose leather to direct sunlight. LUXY highly recommends using eco-friendly products
