FRAME OUT

DESCRIPTION

FRAME OUT: is Luxy's new collection of outdoor seating.

Comfort, style, and versatility define these upholstered models, specifically designed for outdoor use. The backrest and armrests are made of flexible rope resistant to weathering, 100% Made in Italy and hand-woven by skilled local artisans. The range includes stackable armless chairs, chairs with armrests, armchairs, and sofas. The collection is completed by two coffee tables, also suitable for outdoor environments.

Frame Out is the ideal solution for outdoor spaces, residential settings, and hospitality applications.

Designed by Mask Design Studio in compliance with high sustainability standards.

BACKREST: padding in fire-retardant expanded polyurethane foam with dual density (30 kg/m³ and 50 kg/m³) in differentiated zones, with a 1.2 mm thick steel sheet insert.

SEAT: padding in fire-retardant expanded polyurethane foam, density 50 kg/m³, with double multilayer wood insert.

FABRIC: the selection can be customized from a wide range of available colors.

FRAME: aluminum structure covered with soft, fully waterproof cushions with differentiated densities to ensure enhanced comfort.

INSTRUCTIONS FOR USE

Use of the entire seating surface

The anatomical seat surface must be fully occupied. Only in this way is correct contact with the backrest ensured, providing proper support.

MAINTENANCE AND CLEANING

Metal parts

For cleaning, use specific metal polishing products in order to slow down natural oxidation caused by contact with the environment.

Upholstery and padding

Any stains on the upholstery fabric may be removed using mild neutral detergents or specific products recommended by the manufacturer, such as sanitizing and water-repellent treatments, to ensure optimal preservation of the upholstery. If the padding presents structural issues requiring maintenance, it must be handled exclusively by specialized personnel.

ASSISTANCE

All servicing operations must be carried out exclusively by properly trained specialized personnel, and requests must be submitted directly to LUXY as the manufacturer. Maintenance or replacement of components performed by unauthorized personnel will void the warranty.

WARRANTY

Our products are guaranteed for 5 (five) years and cover manufacturing or material defects not attributable to improper or incorrect use of the product.

The warranty does not cover excessive or incorrect use, normal wear and tear of materials (fabrics), defects caused by interventions carried out outside the manufacturer's facilities, or defects due to humid environments or atmospheres containing salt or acids. Our warranties reflect the processing applied to production materials and not their intrinsic properties.

PRODUCT INFORMATION

The materials used are recyclable. At the end of the product's life cycle, do not dispose of it in the environment; disposal must be carried out according to the type of material. The company reserves the right to make changes to this catalog and to production without prior notice.

SUITABILITY FOR OUTDOOR USE

The FRAME OUT collection is suitable for outdoor use thanks to the materials and treatments adopted.

Frame: made of aluminum, a material naturally resistant to corrosion. TIGER Drylac powder coating with high resistance to UV rays and weathering ensures durability and color stability in outdoor use.

Rope: woven rope made of high-performance PET yarns, fire-retardant and UV-stabilized, suitable for outdoor applications.

Fabrics: outdoor upholstery certified according to Oeko-Tex Standard 100, water-repellent, resistant to sunlight and weathering, and immune to fungi, bacteria, and mold.

The above construction features make the FRAME OUT product family suitable for use in both residential and contract outdoor environments.
