MAINTENANCE AND CLEANING

Metal Parts: For cleaning, use specific products for metal polishing to slow down natural oxidation due to contact.

Coating and Padding: Any stains on the fabric covering can be removed with mild neutral detergents or with specific products recommended by the manufacturer as sanitizing and water-repellent, for better preservation of the good condition of the coating itself. The paddings, in case of structural issues requiring maintenance, must be handled exclusively by specialized personnel.

Service operations must be carried out exclusively by specially trained personnel, and requests should be directed directly to LUXY as the manufacturer. Maintenance and component replacements performed by unauthorized personnel will void the warranty.
