MAINTENANCE AND CLEANING

Metal Parts: For cleaning, use specific products for polishing metals to slow down natural oxidation due to contact.

Coating and Padding: Any stains on the fabric coating can be removed either with mild neutral detergents or with specific products recommended by the manufacturer as sanitizers and waterproofing agents, for better preservation of the coating's good condition. The padding, if it presents structural issues requiring maintenance, should be handled exclusively by specialized personnel.

SERVICE

Service operations must be carried out exclusively by specially trained personnel, and requests should be directly forwarded to LUXY as the manufacturer. Maintenance and component replacements performed by unauthorized personnel will void the warranty.

Excluded from the warranty are excessive or incorrect use of the product, natural wear of materials (fabrics), defects caused by interventions carried out outside the manufacturer's premises, defects due to humid environments or atmospheres with the presence of salt or acids.
